Rules Review - Cue Ball Size

Rule I.B.7. Varied cue ball sizes are allowed but all tables used for league play must maintain the same size cue ball through out the length of the scheduled season. **This means that if a player goes to a bar to practice an hour before a match, (or even the day before the match), the cue ball that is on that table must be the same as what they use the night of league play.** If a team is replacing a cue ball to a newer one of the same size and weight the day of, that is ok as long as it is the **same size and weight as the one that is there for the public to practice with all year long, every day.**

Table Runs

Congratulations to Frenchy, Andy Sonnichsen, Pete Alby, and Eric Sonnichsen, for your table runs this week.

Rosters

Effective Immediately (**November 1st**): No one will be allowed to shoot that is not already listed on the standings sheet that week. **If you need to add someone**, it must be done the **week prior** so that the player is listed on the standings sheet **before** he subs. **See page 3 of the rule book under rule 1.D.4. Finalized rosters will be due on January 1st, with no changes at all allowed after that.**

Lucky Mojos

At this point, your team is the only one that cannot seem to adhere to this rule listed to the left and below here. Either you play your matches with the cue ball that is on the table all week, or you take the one from behind the bar that they bring out right before you start your matches and make sure that one stays out ALL WEEK long for anyone to practice with during the week. These are rules the league voted on so we need to enforce them.

Scoresheets

Again this week I did not get scoresheets sent to me. Remember that BOTH team captains are responsible for sending a pic of your scoresheets. This ensures that at least one of the pictures turns out, that both teams have the same results listed, and that one team doesn't forget to do it. This would not be an issue then.

Safety Shots

Safety shots are not allowed in our league. The rule says that the penalty is loss of shot, but that is a given and was a mis-print. It was originally voted as loss of game. I have gotten many complaints of shooters playing blatant safety shots. If the same names keep coming up, a meeting will be held to decide what penalties to impose on those specific shooters.
